FCC MAIL ROOM

In the matter of: Request for Review by the Chelmsford Public Schools of Decision of
Universal Service Administrator

Reference: FCC Docket Nos. 97-21 and 96-45

Re: Billed Entity Number: 120395
Application Number: 121663

Funding Request Number: 174887
Funding Year: 1999-2000

Dear Sirs:

This letter serves as an official appeal to the Universal Service Administrator's ruling on the appeal of the above referenced application for funding of Nextel Communications service.

We provide our students and staff access to both cellular and wire telephone services as part of a shared network for learning. The cellular service provides distance learning through Nextel Direct Connect. This service enhances the field experiences of our students and staff. In science, as well as community work including organized formal field trip experience, we use the application of both cellular telephone and direct connection. In addition, the contract with our teachers indicates that this technology is available to them for their field work learning experiences. This service is used like any regular telephone service and on occasion it may be used for an emergency.

Under the provisions of CC Docket No. 96-451 Schools and Libraries Eligibility List, paragraph 748, we feel that this technology is an approved application for SLC funding for services of cellular telephone low power transmitter telephone networks.

We are at a loss to understand the denial of this service and request through the appeals process this decision be reversed.

Sincerely,

Bernard DiNatale
Executive Director of
Information and Technology
